

Lull Telehandler Parts

Lull telehandlers have been providing precision load placement ever since the year 1959. Whether the work involves transferring loads, positioning heavy steel or landing loads on scaffoldings, utilizing a Lull telehandler would really help make the task go faster and easier. These units are available together with the patented Stabil-Trak stability system to ensure operator confidence.

The horizontal placement system by Lull could supply eighty inches of boom travel for precision placement capabilities. There are even various optional Lull attachments and [forklift parts](#) for their telehandlers in order to help do whichever job.
